**Confident Results
in 18 hours !**

**Recovery
On XLD Agar**

Salmonella Abony (NCTC 6017)

Salmonella serotype Typhimurium (ATCC 14028)

Rappaport Vassiliadis Salmonella Enrichment Broth (Harmonized)

Selective enrichment medium for *Salmonella* species from pharmaceutical products in accordance with microbial testing by harmonized methodology of USP/EP/JP/IP.

Presentation

Product validated at 115°C (10 psi) for 30 minutes by using *Bacillus subtilis* spore ampoules (5230).

Features	Benefits
1. Product formulated to perform as per international standards	<ul style="list-style-type: none"> • Turbidity observed in 18 hours after inoculation of standard test strains. • Recovery on XLD Agar within 18 hours.
2. Wide storage temperature of 15°C-25°C	<ul style="list-style-type: none"> • Better in use stability of product at user end.
3. Uniquely designed polypropylene tubes	<ul style="list-style-type: none"> • Better visualization of results.
4. Compact pack size of 50 x 10 mL tubes	<ul style="list-style-type: none"> • Ideally suited for small & big customers. • Occupies less storage space.
5. Ready to use product	<ul style="list-style-type: none"> • Minimizes usage of equipment, manpower.

CAT No. : 203180530010 Pack Size : 50 x 10 mL Shelf Life : 1 Year
